Greetings Friends!

I am really looking forward to this coming year. We have great music planned, a wonderful line-up of interesting and award-winning speakers, and what we hope will be our best Film Festival ever!

But what I am also looking forward to is working on a plan for improvements to the community center campus. I have talked with leaders from the 30+ organizations that use the facilities, and all agree it is time for some modernization.

This past Spring (2023), an advisory committee was formed, and Friends along with other Boca Grande Community Center Campus Partners conducted a survey via email to listen to what our community thought about the community center. We received hundreds of responses and learned there are some very important factors to consider in our planning...

- The historic character of the center must be preserved and enhanced
- Green-space and the center lawn is a valued asset
- Auditorium programs have become a critical part of community life
- Think outside the box and look at ways to re-align space between the current leaseholders (Art Center, Boca Bargains, The Island School, Historical Society, GICIA, Friends, Royal Palm Players, Crowninshield Community House, and of course, Lee County Parks & Recreation)
- Develop a phased construction process for minimal disruption to programming during season

The Friends board of directors was also honored to know that the community is confident in the organization's ability to lead this effort in collaboration with Lee County Parks and Recreation. As part of cultivating a path forward, Parker / Mudgett / Smith Architects, Inc., (designers of The Island School) will take us through the process of creating a master plan from design to completion. Jeff Mudgett, the firm's President and Principal architect will work with each of the campus leaseholders to coordinate as much of their needs as possible with purposeful realignment into the plan.

Throughout the 2023-24 season, we will be sharing the master plan with the community to get your input. We believe that culture is each generation's gift to the next, and that thoughtful updates will create a better experience for the next 20+ years, while staying true to the quintessential charm of the island! Of course, it will take broad community support to bring these plans into reality. We hope to raise the necessary funds to begin the transformation of the community center into what will become the Cultural Center of Boca Grande in 2024.

It really is an exciting time and I can't wait to see you back in Boca Grande! How our community comes together is what sets us apart.

The Birth of the Pill: How Four Crusaders Reinvented Sex and Launched a Revolution

WEDNESDAY, DECEMBER 6 | 4:30PM

Jonathan Eig, Bestselling Author

We know it simply as “the pill,” yet its genesis was anything but simple. Spanning the years from Margaret Sanger’s heady Greenwich Village days in the early twentieth century to trial tests in Puerto Rico in the 1950s to the cusp of the sexual revolution in the 1960s, this is a grand story of radical feminist politics, scientific ingenuity, establishment opposition, and, ultimately, a sea change in social attitudes. Brilliantly researched and briskly written, “The Birth of the Pill” is gripping social, cultural, and scientific history.

Jonathan Eig is the bestselling author of six books. He served as consulting producer for the PBS series “Muhammad Ali,” which was directed by Ken Burns. He has appeared on the Today Show, NPR’s Fresh Air, and The Daily Show with Jon Stewart. But his greatest claim to fame, according to his parents, is that his name once appeared in a Jeopardy question (which was solved correctly for \$200).

Nature's Best Hope: A New Approach to Conservation that Starts in Your Yard

WEDNESDAY, DECEMBER 13 | 4:30PM

Douglas W. Tallamy, Entomologist, Ecologist & Conservationist

Doug Tallamy is the T. A. Baker Professor of Agriculture in the Department of Entomology and Wildlife Ecology at the University of Delaware. He has authored 112 research publications and has taught insect related courses for 41 years. His first book, *Bringing Nature Home*, awakened thousands of readers to an urgent situation: wildlife populations are in decline because the native plants they depend on are fast disappearing. His solution? Plant more natives.

In this new book, Tallamy takes the next step and outlines his vision for a grassroots approach to conservation. *Nature's Best Hope* shows how homeowners everywhere can turn their yards into conservation corridors that provide wildlife habitats.

This America of Ours: Bernard and Avis DeVoto and the Forgotten Fight to Save the Wild

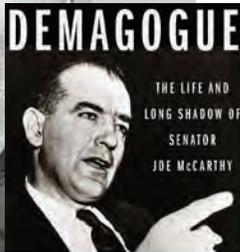

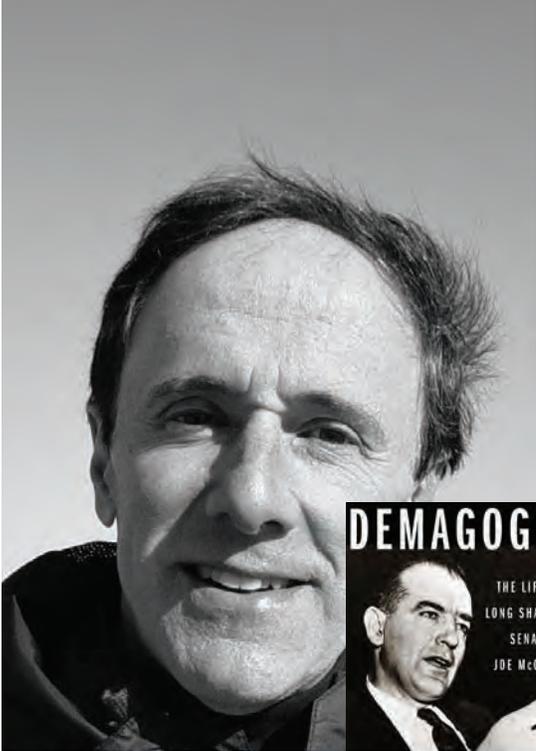

WEDNESDAY, JANUARY 17 | 4:30PM

Nate Schweber, Award-Winning Journalist

In the middle of the 20th century, Bernard and Avis DeVoto learned that corrupt U.S. Senators Joe McCarthy and Pat McCarran were bent on selling more than 200 million acres of public lands far below their value to a coterie of ranchers in Idaho, Montana, and Wyoming. The DeVotos rallied an eclectic group to the aid of America's national lands. Nate Schweber tells a swashbuckling story in *This America of Ours: Bernard and Avis DeVoto and the Forgotten Fight to Save the Wild*. In this lecture, you will meet the people and dedicated national park rangers who threw themselves into the fight that the DeVotos led against some of the most powerful men in America. Once you meet the DeVotos, you'll never forget them or what you owe them.

WEDNESDAY, JANUARY 24 | 4:30PM

Larry Tye, *New York Times* Bestselling Author

Demagogue is Larry Tye's most recent biography of Senator Joe McCarthy. Tye speaks about how the senator learned from demagogues who came before and was the archetype for those who followed; why his family gave Tye the revealing trove of professional and personal papers that had been under lock and key for 60 years; and how his never-seen medical records offered a novel lens into how he lived and died.

Larry Tye, who graduated from Brown University, was a Nieman Fellow at Harvard University in 1993-94. He taught journalism at Boston University, Northeastern, and Tufts. In addition to his writing, Tye runs the Boston-based Health Coverage Fellowship, which helps the media do a better job reporting on critical issues like public health and pandemics, mental health and the health impacts of climate change, and racial, ethnic, and gender disparities in health care.

The Artificial Intelligence Revolution

THURSDAY, FEBRUARY 1 | 4:30PM

Heidi A. McKee, Professor of Rhetoric & Writing, Miami University

Artificial Intelligence (AI) can write hundreds of words in seconds, clone voices so well even family members can be fooled, and produce images and videos that can alter perceptions of fact and fiction. Heidi McKee will show and explain—in layperson terms—how generative artificial intelligence (AI) systems work and examine the benefits, drawbacks, and ethical issues of AI communication technologies. As Heidi will present, we are all impacted by AI, and we all have contributions to make to discussions shaping the usage (and regulation) of AI.

Heidi McKee is the co-author and editor of five books and 35+ chapters and articles. For the past seven years, her research has focused on artificial intelligence, examining such issues as AI communication ethics, the role of rhetorical intelligence, and the dynamics of human-machine teaming in writing. Her current project is co-writing an article with four Miami students about the impact of AI on teaching and learning.

Becky Buller is a multi-instrumentalist, singer, and songwriter from St. James, Minnesota, who has traversed the globe over performing bluegrass music to underwrite her insatiable songwriting habit. Becky has written songs for Grammy award-winning albums: she co-wrote “Freedom,” the lead-off track of The Infamous Stringdusters 2018 Grammy-winning album *Laws of Gravity* as well as “The Shaker” on The Travelin’ McCoury’s self-titled release that brought home the 2019 Best Bluegrass Grammy.

ALL THAT JAZZ

Dave Bennet Quartet

**MONDAY, FEBRUARY 12 | 5:00PM & 7:30PM
CROWNINSHIELD**

Dave Bennett doesn’t fit the mold. You don’t find many jazz clarinet players who name Alice Cooper, Stevie Ray Vaughan, and Chris Isaak among their influences. You won’t find many musicians who are equally conversant with the music of Benny Goodman (the “King of Swing”) and Roy Orbison (“The Soul of Rock and Roll”). In fact, you may not find even one other clarinet virtuoso who breaks from his Swing Era repertoire to sing rockabilly hits while accompanying himself at the piano or electric guitar. He has been a featured soloist at Carnegie Hall with The New York Pops (2013) and has been featured with 35 other US and Canadian orchestras including Nashville, Houston, Detroit, Rochester, Omaha, Toronto, Calgary, Vancouver, Orlando, San Antonio, Jacksonville, Portland, OR and Portland, ME.

Emily Asher's Garden Party

MONDAY, MARCH 11 | 5:00PM & 7:30PM | CROWNINSHIELD

Emily Asher is a trombonist, singer, educator, bandleader, and songwriter. *The New York Times* notes her “buoyant charm” and *Wall Street Journal* claims, “In traditional jazz, the trombone comes closest to the human voice, although up to now it’s rarely been cast as a distinctly female voice... Ms. Asher plays with both grit and grace.” Asher is joined by her uncommonly versatile New York City-based band. Celebrating Asher’s fifth album, *If I Were A Window*, the band plays hot jazz, swing, salsa, and ballads ranging from striking and unusual to traditional and catchy, taking listeners on a fun international sound tour.

Benny Benack III

**MONDAY, APRIL 8 | 5:00PM & 7:30PM

Emmy-nominated trumpeter and singer Benny Benack III has proven to be that rarest of talents: not only a fiery trumpet player with a stirring command of the post bop trumpet vernacular in the vein of Kenny Dorham and Freddie Hubbard, but also a singer with a sly, mature, naturally expressive delivery in the post-Sinatra mold, performing standards and his own astute songs with a thrilling sense of showmanship. The audience is in for a night of unforgettable music as Benack showcases his impressive range and virtuosity on the trumpet, backed by the talented Brandon Robertson Trio.
